Art Unit: 3634

1. Claims 7-9, 13, 14, 20-22, 26 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, line 2 and in claim 20, line 2 "a second magnet" has no proper antecedent, as a first magnet has not been previously claimed. In claims 8 and 21 there is no basis for "a second detent". In claims 13 and 26 "a second hinge" has no antecedent basis. In claims 14 and 27 "a second mounting tab" has no proper antecedent basis.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-3, 12, 13 and 15 are rejected under 35

U.S.C. 102(b) as being clearly anticipated by Gross '922.

Note, that third arm(74) of Gross '922 is adapted to be connected to a cover.

4. Claims 1, 10 and 11 are rejected under 35

U.S.C. 102(e) as being clearly anticipated by Champion et al. '248.

Note, that arm(105) has both a slot and a tab.

5. Claims 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 7-9 and 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 3634

7. Claims 20-22 and 26-27 would be allowable if rewritten or amended to overcome the rejection(s) under 35

U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. Claims 16-19, 23-25 and 28-37 are allowed.

9. The patents to Baiza, Hastings et al., Mayer, Richardson et al., Webb et al., Lindsay, Hubbard, and Lew are cited to show similar structures.
